

Description

The 20066 LED/UV bendable workshop light is the ideal workshop portable light source due to its low heat output, high shock resistant rubber housing and extremely long life. Safe and easy to use, the 20066 features three high power super LEDs for exceptional light emission, and five ultra-high intensity UV LEDs designed for fluorescent leak detection. A major advantage of the 20066 is the 120° folding design offering the ultimate in flexible positioning. And for convenient hands free use the additional benefits of a magnetic base and a 360° fold away hanging hook increase the application possibilities.

Specifications

Charger Specification	AC240V 50/60Hz
Charging Voltage/Current	5.3V / 0.6A
Battery Specification	3.7V 2000mAh Li-ion
Time Of Charging	approximately 5 hours
Time Of Discharging	approximately 3 hours
Brightness	1600 Lux at 0.5m

- Cordless, rechargeable shop light - take it with anywhere
- 3 High Power LEDs provide high light output to work surfaces
- 5 UV LED spot light provides for leak inspection
- 150 degree folding design offers the ultimate in flexible positioning
- Strong built-in magnet design for parallel or multi-angle use
- 2 rear hooks enable mounting under-hood & under-car applications
- Includes both 240V AC charger and 12V in-car charger for added convenience

Battery treatment/charging

- Charge the battery for at least 8 hours before first use
- Red indicator constant on: charging
- Green indicator constant on: charging completed
- Do not leave battery in full discharged condition.
Recharge the work light at least once in every 30 days

Warning & Safety Issues

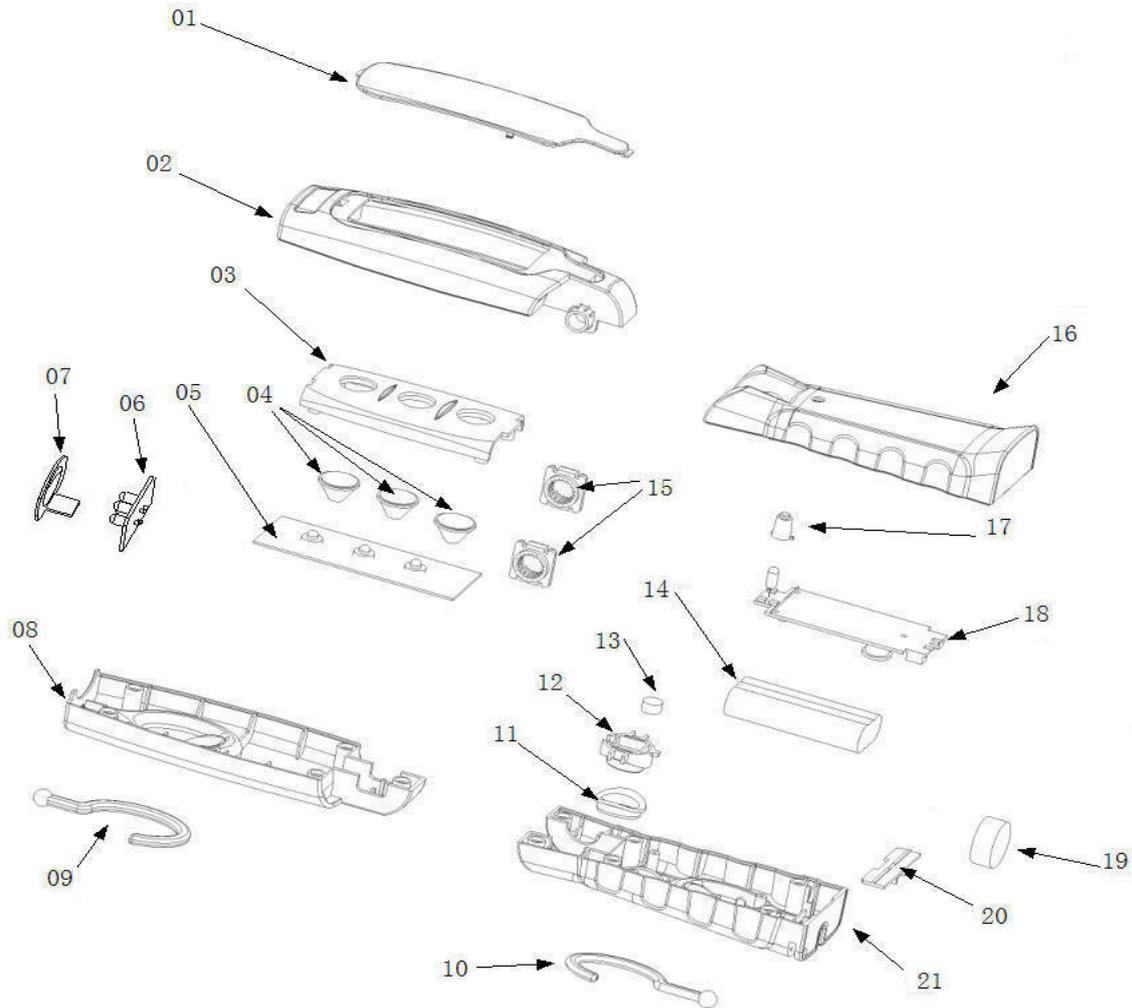

- Green indicator constant on: charging completed
- Avoid looking directly into the beam
- Do not use the lamp near open flames
- Always fully charge to extend battery life

General

Thank you for choosing to buy and use the 20066 LED/UV Bendable Workshop Light supplied by Alemlube. We trust that the 20066 proves to be a reliable, time saving, cost saving and a productivity increasing tool for you and your company.

Parts And Drawing Breakdown 20066

Parts List – Part No. 20066

No.	Name
1	Main lens
2	Upper housing
3	Reflector
4	Optical lens
5	PCB for main light
6	PCB for top light
7	Lens for top light
8	Down housing
9	Upper hook
10	Down hook
11	Button

No.	Name
12	Switch holder
13	Switch pole
14	Battery
15	Rotating gears
16	Upper housing for holder
17	Indicator lens
18	Control board
19	Magnets
20	Positioning card
21	Down housing for holder
